

The Crayon Man

VOCABULARY

Word	Student-friendly definition
crayons	colored sticks that people, especially children, use to draw pictures or to color
pigment	anything that is used to provide color
cousin	the son or daughter of your aunt or uncle.
inventor	someone who creates something completely new
eight	the word for the number “8,” between “7” and “9”
experimenting	careful testing used to discover or understand something that is not known
wax	a solid substance made by bees; the main component of crayons
gold medal	the award for winning first place in a competition such as the Olympics or a World’s Fair
color	some of the colors we can see are red, blue, green, yellow, purple, and orange. Color is one of the most important things we use to describe things.
