Beavers live
in streams.

They have
flat tails.

They are good
swimmers.

They have warm fur.

By Sylvain Hays (Own work) [CC BY-SA 3.0 (<https://creativecommons.org/licenses/by-sa/3.0>) or GFDL (<http://www.gnu.org/copyleft/fdl.html>)], via Wikimedia Commons

Beavers make dams
out of wood.

They cut wood with
their sharp front teeth.

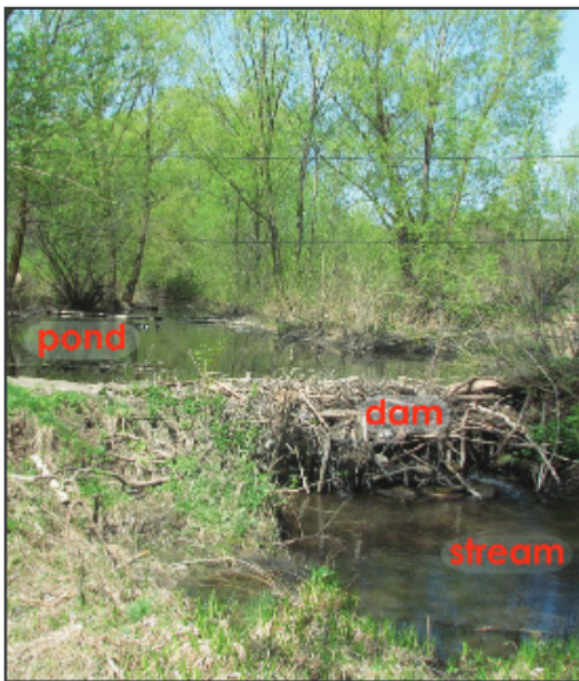

Where Do Beavers Live?

By Thomas Quine [Beavers] [CC BY 2.0 (<http://creativecommons.org/licenses/by/2.0/>)], via Wikimedia Commons

Beavers can cut down large trees.

They eat wood, too.

By Team Venture [Own work] [CC BY-SA 4.0 (<https://creativecommons.org/licenses/by-sa/4.0/>)], via Wikimedia Commons

Beavers make dams in the water.

They make them across streams.

One beaver family lives inside each dam.

The dam is their home.

Beaver dams block streams.

They stop the water from flowing.

This forms a pond.
